Rome, November 26, 2024 - **CY4GATE (CY4.MI)**, a national and European player in cyber security and cyber intelligence, announces that today the Ordinary and Extraordinary Shareholders' Meeting met in single call.

ORDINARY SESSION

AUTHORIZATION TO PURCHASE AND DISPOSE OF TREASURY SHARES

The Shareholders' Meeting approved the proposed authorization to purchase and dispose of treasury shares, in one or more instalments, up to a maximum number of the Company's ordinary shares that would lead the Company, if the purchase option is exercised in full, to purchase a number of shares not exceeding 450,000 ordinary shares, representing in total approximately 2% of the Company's share capital.

The objectives underlying the authorization lie in the desirability of providing the Company with an effective instrument that will enable it to:

- use the treasury shares (including through exchange, swap, conferment, transfer, or any other act of disposal) in extraordinary transactions related to the implementation of potential industrial and financial projects or in the context of extraordinary financial operations, consistent with the strategic guidelines that the Company intends to pursue;
- fulfill the obligations arising from stock option programs or other share allocations to employees or members of the administrative or supervisory bodies of the Company or its subsidiaries or affiliates, within existing and any future stock-based incentive plans, in accordance with the remuneration policies adopted by the Company;
- enhance the value for the shareholders also by improving the Company's financial structure and through any subsequent cancellation of treasury shares without reducing the share capital, in compliance with the mandatory corporate requirements; and
- conduct operations supporting the liquidity of the Company's shares, thus promoting the regular course of trading and preventing price movements not aligned with market trends, as well as stabilizing trading and stock prices in response to temporary distortions caused by excessive volatility or low trading liquidity.

Authorization for the purchase of treasury shares is granted for a total term of 18 months from the date of authorization by the Shareholders' Meeting. The disposition of the treasury shares purchased pursuant to the resolution adopted by the Shareholders' Meeting may be made in one or more solutions in compliance with the

legal and regulatory requirements and permitted practices pro tempore in force. In view of the need to ensure maximum flexibility for the Company from an operational standpoint, the disposition of treasury shares is granted without time limits.

Purchase transactions may be carried out, according to any of the methods provided for and permitted by current regulations, to be identified from time to time at the discretion of the Board of Directors, in compliance with Articles 2357 et seq. of the Civil Code, Article 132 of the TUF, Article 144-bis of the Issuers' Regulations and any other applicable rules, including the rules set forth in Regulation (EU) 596/2014 and Delegated Regulation (EU) 1052/2016, as well as the pro tempore accepted market practices in force (where applicable) and the regulations issued by Borsa Italiana S.p.A..

The unit price for the purchase of the shares will be established on a case-by-case basis for each individual transaction, having regard to the method chosen for carrying out the transaction and in compliance with the statutory and regulatory requirements, as well as with accepted market practices pro tempore in force, where applicable and, in any case at a price that does not deviate downward or upward by more than 10% from the reference price recorded by the stock on the stock exchange session on the day preceding each individual transaction, and in any case at a price that is not higher than the highest price between the price of the last independent transaction and the price of the highest current independent bid present on the trading venue where the purchase is made.

As of today, the Company holds a total of 450,000 treasury shares (equal to approximately 2% of the share capital).
