

Press Release

**CY4GATE IS AWARDED A CONTRACT WITH A TOTAL VALUE
OF APPROXIMATELY €2.5 MILLION FOR THE DURATION OF 2 YEARS TO PROVIDE SOLUTIONS
IN THE CYBER SECURITY FIELD FOR INSTITUTIONAL CUSTOMERS**

Rome, 23 December 2024 - **CY4GATE (CY4.MI)**, a national and European player in cyber security and cyber intelligence, has signed a contract for a total value of approximately € 2.5 million with a leading national high-tech company for the supply of a technological solution aimed at raising the levels of cyber protection.

This is a solution that includes new technological developments over the two-year period over which the project is structured, which will allow the end customer to be able to benefit from an increased cyber defense capability in light of emerging threats and in anticipation of future and even more insidious attacks. The project will benefit from the skills and technologies already available that will form the basis on which to articulate product evolutions and will require the employment of professionals capable of expressing very vertical and deep expertise in the specific segment.

Emanuele Galtieri, CEO and General Manager of Cy4Gate Group, stated: *“Being a high-tech product company in a niche sector and market context where not many European platforms and solutions are offered, allows us to continue to be chosen in both the domestic and European markets.*

And the trend of the last few months demonstrates this.

Moreover, I record how many of the recent contracts acquired, like today's, are multi-year, thus leading to a growth in the order book for the coming years, gradually limiting the seasonal effect of revenues from a predominantly institutional business, which sees orders and revenues concentrated particularly in the last quarter.”
