Our growth Strategy: Actions

2024

2025-2026

Defence

- **Strengthen industrial partnerships** with Tier-1 Italian and European Defence Contractors
- **Penetrate new geographies** through Cyber Academy and Cyber Labs
- **Increase direct domestic and international** market penetration leveraging mother company network

- **Capture EU funds** (NATO, EDA, ESA) for R&D in the cyber also through industrial partnership
- **Take part to international consortia** or JVs for pluriannual defence programs

Security & Law Enforcement

- **Consolidate the Italian market**, focusing on more relevant P.P.O. districts whilst decreasing exposure on less profitable Offices
- **Maintain commercial advantage** while mitigating need for relevant investments through selected partnership with specialized boutique firms
- **Increase market penetration** of newly developed tactical devices in Italy and abroad

- **Progressively gain relevant** shares and presence in the more stable European region
- **Ensure consistent growth in the Spanish** market leveraging on our pluriannual presence in the Country (Dars), to create Cy4 second domestic market for revenues after Italy.

Corporate

- **Shift from products to capabilities offering** to improve competitiveness (cyber security platform)
- **Complement sales force efforts** through new effective channel partnerships (Attiva, Innovery)
- **Enlarge domestic market penetration** in big/medium size corporation through a reinforced and well seasoned sales team
- **Pursue up-selling and cross-selling** opportunities in new corporate segments (banking, automotive, luxury, travel) thanks to XTN acquisition

- **Expand business to new geographies in E.U.** partnering with foreign channels and fostering development of an international sales team
- **Push on inorganic** growth via M&A

Opportunities

The strategy will be a key enabler to:

- ✓ intercept growing Defence market needs, characterized by global relevant investments, huge size and pluri-annual contracts, enabling quick creation of backlog, thus supporting Corporate sales in seasonality risks reduction
- ✓ further consolidate leadership position in Italy (notwithstanding sector justice reform) and boost growth primarily in E.U.
- ✓ expand Corporate market presence to support creation of recurring stream of regular revenues throughout the year, accelerating the process of seasonality mitigation

Financials

Highlights

The results of the first 9 months of 2024 confirm the soundness of the CY4Gate Group with the **improvement of all economic indicators** compared to 9M 2023; **seasonality of turnover** - historically concentrated in the last quarter of the year - **is still relevant** partially offset by XTN and DARS (RCS group Company) sales

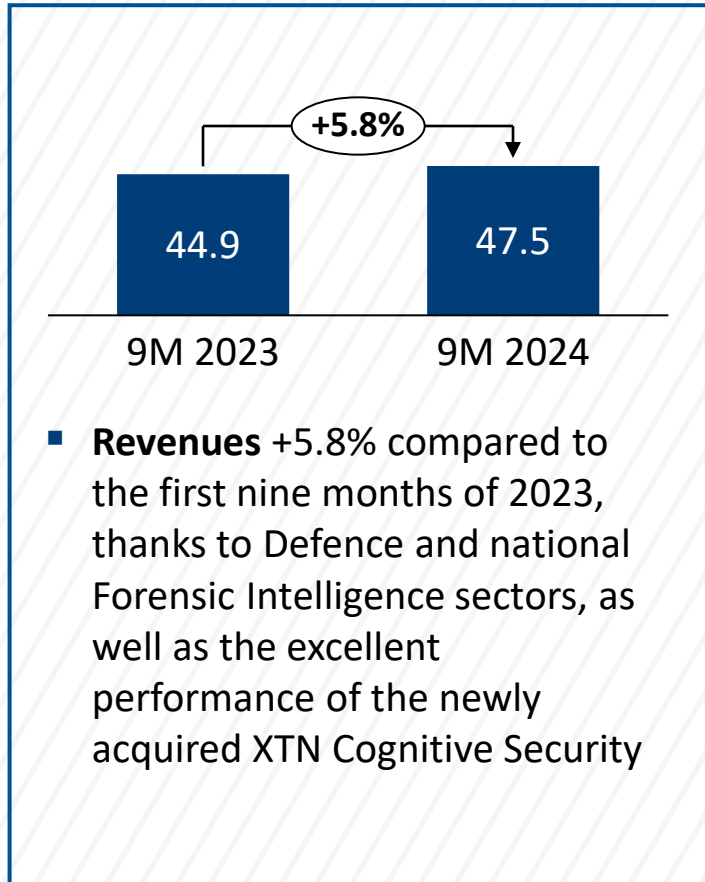

The Value of Production compared to 30 September 2023 **grows by around 6%** thanks to the defence sector, the cyber intelligence sector to support law enforcement in Italy, and the excellent performance of the newly acquired XTN. This growth offset the lack of revenues related to **foreign orders in the Forensic Intelligence sector**, affected by the uncertainty of the international geopolitical scenario

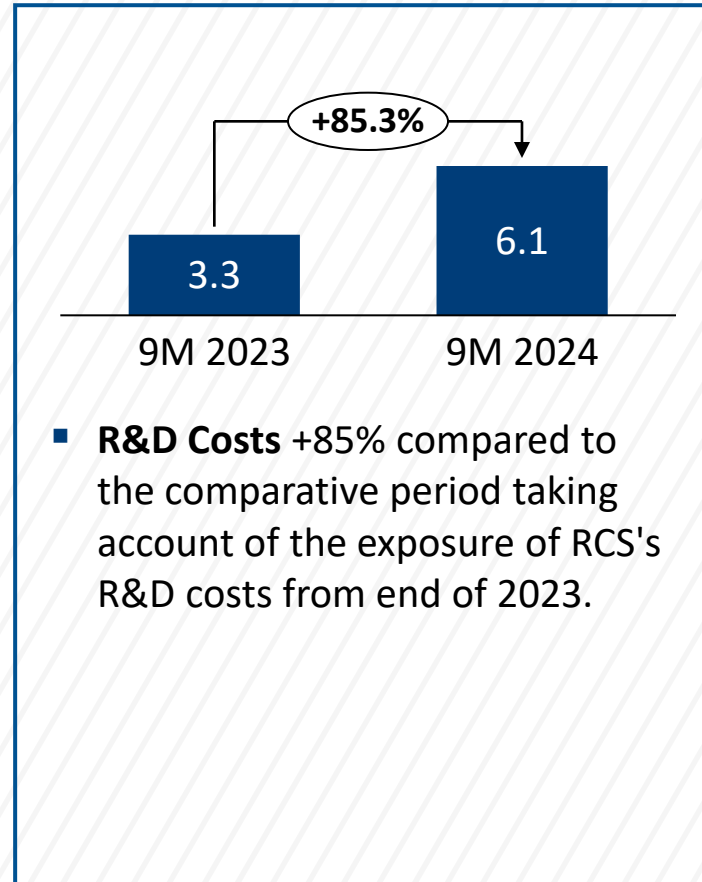

The Group continues to pursue **its strategy to deseasonalize the business**, also thanks to the creation of an **important backlog** with the closing of significant **contracts in terms of amount and profitability**, with multi-year duration. **Guidance 2024 confirmed.**
